Enhanced Fundamentals

Enhanced Fundamentals, a full day session, along with self-directed learning, is a prerequisite for the Comprehensive Advanced Palliative Care Education (CAPCE) Program.

To participate in the Enhanced Stream of the Fundamentals program, the participant must:

- Be a Nurse Practitioner (NP), Registered Nurse (RN) or Registered Practical Nurse (RPN); and
- Have successfully completed the Core Fundamentals program.

Following completion of the Enhanced Fundamentals program, the participant will:

1. Demonstrate an understanding of the basics of a physical and symptom assessment.
2. Demonstrate an understanding of how to administer medications commonly utilized in symptom management for persons with advanced life-limiting illness.
3. Demonstrate an understanding of the potential nurse leadership role.

Performance objectives

At the end of this course, the registrant will:

1. Demonstrate sensitivity, understanding and respect for the individuality of the patient, family and team/caregivers
2. Identify and understand issues associated with illness and bereavement
3. Effectively communicate with the patient, family and team
4. Recognize and report changes in any of the Domains of Issues associated with illness and bereavement
5. Provide hospice palliative support care strategies
6. Actively learn and develop personally and contribute as part of a team and organization
7. Demonstrate sensitivity to the impact personal attitudes, behaviours and values can have on the illness, experience of the patient and, family and team/caregivers
8. Learn about communication assessment tools, 'yellow folder', Symptom Response Kit (SRK), End of Life symptoms, grief, Medical Assistance in Dying (MAID) and care for the caregiver
